26 Feb. 2008

Sir/Madam,

With a special focus on health status of Women and Children, various initiatives had been taken by the Govt. of India. National Health Policy 2002 acknowledge the role of AYUSH systems in the health scenario of the country. The National Rural Health Mission also advocated mainstreaming of AYUSH systems of medicines in the health sector of the country. Department of Ayurveda, Yoga and Naturopathy, Unani, Siddha and Homoeopathy (AYUSH) has decided to launch National Campaigns in order to harness the potential of these AYUSH Systems depending upon their strengths.

Homoeopathy has been chosen for its role in Mother and Child Care there are many area where Homoeopathy has potential role and can deliver its services for promotion of Mother and Child Health Care.

With this aim, AYUSH, ministry of Health and Family Welfare; Govt. of India has entrusted to state governments to coordinate the programme of State Campaign on Homoeopathy for Mother and Child Care. At the start of Campaign, it is proposed to conduct a two days State Workshop on "Homoeopathy for Healthy Mother and Happy Child" on 17th and 18th March, 2008 at 200 Seater Auditoria of Scientific Convention Center of Chhatrapati Sahuji Maharaj Medical University, Shahmeena Road, Lucknow. The objectives of Workshop are to sensitise the stake holders such as policy makers, physicians from other medical systems, industry, NGOs and the common man regarding strengths of Homoeopathy in Mother and Child Care. This is likely to create greater awareness and avenues for coordination amongst practitioners of different streams of medicine thereby benefiting the patients at large. The State Workshop will be followed by District level Workshops.
